OUR FACILITIES

Crypts

A crypt is a chamber in which your dearly departed can be laid to rest in eternal peace. These are most often made from stone such as granite, marble, or concrete. The crypts at our Orange Grove Memorial Gardens are not filled with earth like that of a regular burial plot, rather the area immediately around the coffin is securely sealed and often commemorated with a plaque or inscription which can be viewed.

Hindu Garden

Hinduism is known as one of the world's oldest religions with over 900 million followers worldwide whose beliefs and customs date back to more than 4000 years.

There are some key beliefs that are intrinsic to the Hindu community:

Truth is eternal.

Brahman is Truth and Reality.

The Vedas are the ultimate authority.

Everyone should strive to achieve dharma.

Individual souls (atman) are immortal.

The goal of the individual soul is moksha (liberation).

Our Hindu Garden has been exquisitely designed with an array of beautiful tropical flowers that explode with bright colour and sweet aroma and provides a sacred space to say goodbye to your loved ones.
